## LOCAL PLANT GAINS WITH BIG MERGER

Details of the Ideco-Stacey  
Consolidation  
Reported

One of the most important industrial consolidations in local history occurred recently when stockholders of the International Derrick and Equipment Company and those of the Stacey Engineering Company, meeting in Columbus, Ohio, concluded arrangements for the merging of the two companies. The new company will be known as the International-Stacey Corporation. It was announced after the stockholders' meeting that the merger would be declared effective immediately, and plans set under way to work out the future of the consolidated companies.

The International Derrick and Equipment Company is engaged in the manufacture of oil well equipment, towers and derricks, transmission, power line and railroad equipment, and other standardized steel products. It owns and operates large plants in Torrance, Columbus, Ohio, Delaware, Ohio, and Beaumont, Texas, and maintains approximately 30 warehouses in this and foreign countries.

The Stacey Engineering Company is the owner and operator of the Stacey Bros. Gas Construction Company, and is largely interested in the Stacey Manufacturing Company, both of Cincinnati, and owns and operates two plants at Connersville, Ind., the Connersville Blower Company and the P. H. & F. M. Roots Company, as well as the Wilbraham-Green Company of Pottstown, Pa. The Stacey company has been in existence for 80 years. The latter three concerns are large manufacturers of all types of blowers, exhausters, meters and other similar equipment.

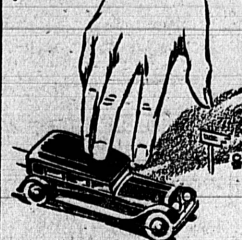

Both International Derrick and the various subsidiaries of Stacey Engineering are of high standing in this and in many foreign countries, and the new company will be well diversified both in its range of products and in the location of its plants.

Runkle is President. It is understood that Colonel Carmi A. Thompson, Cleveland, who is now the president of the Stacey Engineering Company, will be chairman of the board of the new company. Thompson has been associated in business enterprises in Ohio and the Middle West for a number of years. He is well known throughout California and the nation. He is a director of Central United Bank of Cleveland; chairman of the board of Midland Steamship Company, operating a fleet of vessels on the Great Lakes.

and chairman of the board of Continental Stove Company of Iron, Ohio, manufacturers of gas heating stoves and ranges. He was formerly secretary to the late President W. H. Taft and was also treasurer of the United States. It is also understood that Harry M. Runkle, Columbus, now president of the International Derrick and Equipment Company, will be president and general manager of the new company and in direct charge of all operations. Runkle is director of the American Rolling Mill Company, president of the Eastern Hooking Coal Company, and secretary and treasurer of the Battelle Memorial Institute of Columbus, Ohio. Wayne Stacey, Cincinnati, grandson of George Stacey, who founded the Stacey Manufacturing Company in 1848, is to be executive vice president of the new corporation. There will be no changes in the companies in Cincinnati.

SALINAS.—When a Pirate hits a lamb, what happens? You're right—mutton. W. M. Worthington, driving a stage load of Pittsburgh Pirates, was haled into court when he drove his bus into a herd of sheep and killed 47.

## Shipping King

—United Press Photo

Kenkichi Kagami, president of Japan's largest steamship line, and an international figure in shipping, finance and insurance, Kagami arrived this week in San Francisco en route to the International Chamber of Commerce convention in Washington, D. C.

TRAFFIC REGULATION  
WANTED AT CROSSING  
A plea for some kind of traffic regulation at the intersection of Marcelina and Sartori avenues was made to the City Council Tuesday night by Mrs. M. Louise Lynch, a representative of the Torrance, Business and Professional Woman's club. The police commissioner was instructed to investigate and report back to the council.

## EVERYTHING REMEMBERED

CAREFULLY PLANNED IN ADVANCE...  
BECAUSE THAT IS THE RED SEAL  
CONTRACTOR'S BUSINESS

OUTLETS where you never dreamed you'd need them...  
until the need arose and you found them there...

The satisfaction of finding that your cables and conduits  
have that excess capacity that you never expected to use...  
until Electrical Science came along with a new achievement  
which made this additional capacity necessary...

Thoughtful little touches... telephone extension conduits  
... outlets for radio or remote control loud speaker in every  
bedroom... outlets for vibrator, sun-lamp and other modern  
electrical necessities in bathrooms, playroom... outlets  
for outdoor safety-lighting and power requirements that  
have become such a comfort and convenience... just the  
right connection for the new electric range and the new  
water heater... an outlet in exactly the right place for the  
refrigerator and the electrical dish-washer and your electrical  
laundry.

All thought out, carefully planned, provided in a Red Seal  
Electrical Installation... at a cost surprisingly low, with  
satisfaction to you that grows with each succeeding year.

Red Seal... mark of a modern home, now, and in years to  
come. Ask your Electrical Contractor about it. Be guided by  
his good judgment.

CONSULT AN ARCHITECT OR YOUR ELECTRICAL CONTRACTOR
